

VEENODA NTIMANI

JUNIOR JAVA DEVELOPER

Johannesburg, Diepkloof, 1864 • 0796702061 • veenoda19@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Junior Software Engineer with hands-on experience building full-stack applications in a professional financial services environment. Strong foundation in Java, Spring Boot, Restful APIs, MySQL and Angular, with practical exposure to developing, testing, and maintaining scalable applications that meet business requirements. Experience working with MySQL, enforcing code quality, security standards and clean code using SonarQube, and managing containerized applications with Docker and Kubernetes. Contributed to Agile teams at FNB by supporting CI/CD pipelines, improving development workflows, and building AI-driven features to enhance productivity and decision-making. A reliable team player with strong problem-solving and communication skills, able to work independently while continuously learning and adapting to new technologies.

EDUCATION

- **ADVANCED DIPLOMA IN INFORMATION TECHNOLOGY**
VAAL UNIVERSITY OF TECHNOLOGY | EXPECTED: DECEMBER 2026
- **DIPLOMA IN INFORMATION TECHNOLOGY**
VAAL UNIVERSITY OF TECHNOLOGY | JUNE 2023
- **NATIONAL SENIOR CERTIFICATE (MATRIC)**
NWAMAVIMBI SECONDARY SCHOOL | DECEMBER 2019

EXPERIENCE

OCTOBER 2024 – PRESENT

Junior Java Full-Stack Software Engineer | FNB ConnectMe IT | Gauteng, Randburg

- Developed and maintained backend services using Java and Spring Boot to support FNB's financial service applications used by thousands of customers.
- Built responsive front-end components with Angular and integrated them with MySQL databases to create seamless, full-stack user experiences.
- Managed containerized deployments using Docker and Kubernetes, assisting the team in maintaining consistent environments across cloud-native infrastructure.
- Improved code health and maintainability by monitoring SonarQube quality gates and participating in peer code reviews to ensure alignment with banking security standards.
- Collaborated in an Agile/Scrum environment, using Jira for sprint planning and leveraging AI tools to troubleshoot complex bugs and accelerate feature delivery.
- Resolved critical production defects, identifying and fixing bugs in live environments to maintain system uptime and high-quality user experience.

FEBRUARY 2024 – SEPTEMBER 2024

Java Full-Stack Developer Intern | Geeks4Learning | Gauteng, Revonia

- Contributed to building an Algotbot Trading Platform as a capstone project, utilizing Java and Spring Boot to build a robust backend capable of processing simulated market data and trade execution logic.

- Developed a dynamic dashboard using Angular, providing real-time visualizations of trading performance and portfolio metrics for a seamless user experience.
- Contributed to automated CI/CD pipelines via Jenkins to streamline the release process and reduce manual deployment errors.
- Implemented containerization with Docker, packaging the trading engine and frontend into portable units for consistent deployment across different environments.

AUGUST 2023 – NOVEMBER 2023

Microsoft Azure Learnership | DynamicDNA | Gauteng, Randburg

- Earned the Microsoft Certified: Azure Fundamentals (AZ-900) certification, demonstrating foundational knowledge of cloud concepts, security, and governance.
- Gained proficiency in cloud service models (IaaS, PaaS, SaaS) and explored the deployment of scalable resources via the Azure portal.
- Studied cloud-native solution delivery, focusing on how internet-based services optimize infrastructure costs and operational efficiency.

PROJECTS

- [Veenosite](#): A personal portfolio about Ntimani Veenoda showcasing my skills.
- [AlgoBot](#): A Forex trading robot utilizing real-time market data and AI-driven prediction models to forecast market behavior.
- [AICareerCoach](#): A web app where users can save their job applications and use an AI Assistant to get advice on how to improve their resume for a specific job description.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Python Essentials 1
- IBM AI Foundations for Business
- Emerging Technologies: From Smartphones to IoT to Big Data
- IT Essentials: PC Hardware and Software

SKILLS

- **LANGUAGES**: HTML5, CSS3, JavaScript, JAVA, Python, MySQL
- **FRAMEWORKS**: Angular, React, SpringBoot, Hibernate/JPA.
- **TOOLS**: IntelliJ, VSCode, Git, GitHub, Atlassian Stack, Docker, Kubernetes, SonarQube, Jenkins, JBoss and Wildfly
- Microservices architecture, RESTful API, CRUD operations, API Integration, Unit Testing(Junit/Mockito)
- Problem Solving
- Critical Thinking
